

SkillsUSA State and National VEX Robotics Contest

This state contest challenges three-person teams to compete in this year's VEX Robotics Contest "Clean Sweep". The VEX Robotics contest will be held at the state SkillsUSA Conference in Chattanooga as part of the state competitions within the engineering area. Teams are judged on efficiency, speed, programming and teamwork in the "Clean Sweep" VEX competition.

Learning Labs will be directing the contest at the state level. If you are interested, please contact Learning Labs for contest manual, VEX competition kits and orientation materials. VEX Robotics will also be a national contest titled "Mobile Robotics" at the SkillsUSA competitions in Kansas City in June.

Learning Lab Contacts:

Dan Schweickert - dan@lli.com

Kesha Phipps - Machesha.phipps@lli.com

Ben Richardson - ben.richardson@lli.com

TN SkillsUSA is hosting the contest using VEX equipment in the state contest that will move the three person team onto national SkillsUSA VEX competition. SkillsUSA is excited about the opportunity to showcase the VEX Robot program in Chattanooga and to incorporate the contest into a national opportunity for TN students.
